## EXPERIENCE

### Frontend Engineer

#### HeaLink - Third Ai Platforms

📅 September 2023 - Present (10 months)

- Created a robust Personal Health Record (PHR) web application using React and Vite. Designed components based on Figma prototypes, implemented a streamlined system for prescription and invoice generation and printing. Employed Tailwind CSS for responsive UI design and integrated the Abha government API for address functionality and advanced search filters.
- Developed a SuperAdmin Dashboard featuring OTP and email login systems using custom libraries. Proficient in AG Grid, Preact, Material UI, and MUI DataTables, I structured project and file layouts, integrating various APIs to present data in tables and cards.
- <https://www.healink.ing/>

### Front End Developer Intern

#### Visa2fly

📅 February 2022 - September 2022

- Leveraged Angular's Forms, Validators, Binding, Pipes, Services, and Directives to develop dynamic and efficient components, enabling seamless data management and user interaction.
- Utilized Material UI to create visually appealing and responsive interfaces, enhancing usability and accessibility for end-users.
